
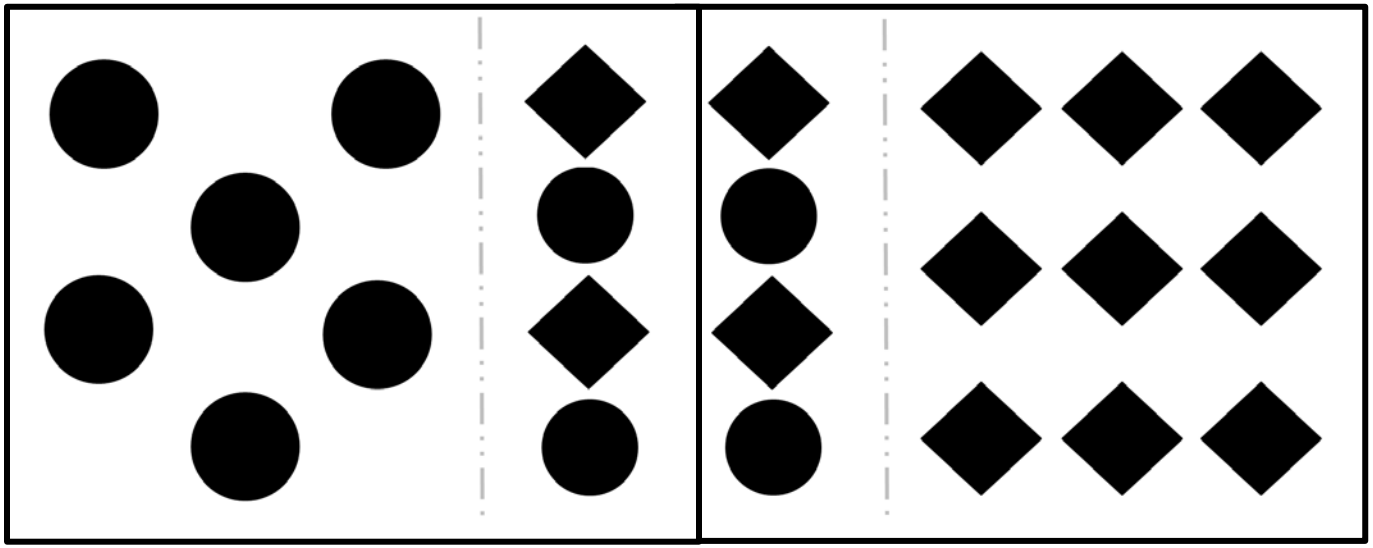
How To Make A Visual Card For Babies

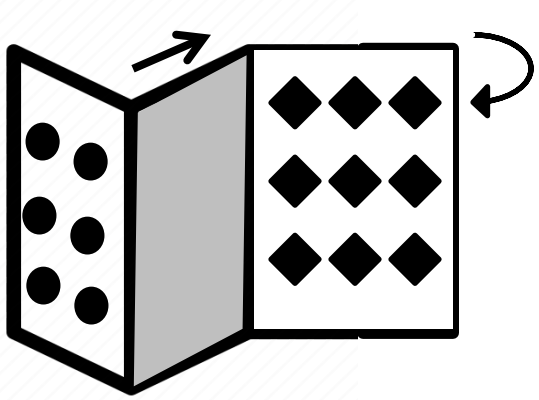
Step one: Print PDF on heavy cardstock paper.
Step two: Glue or tape papers together as shown

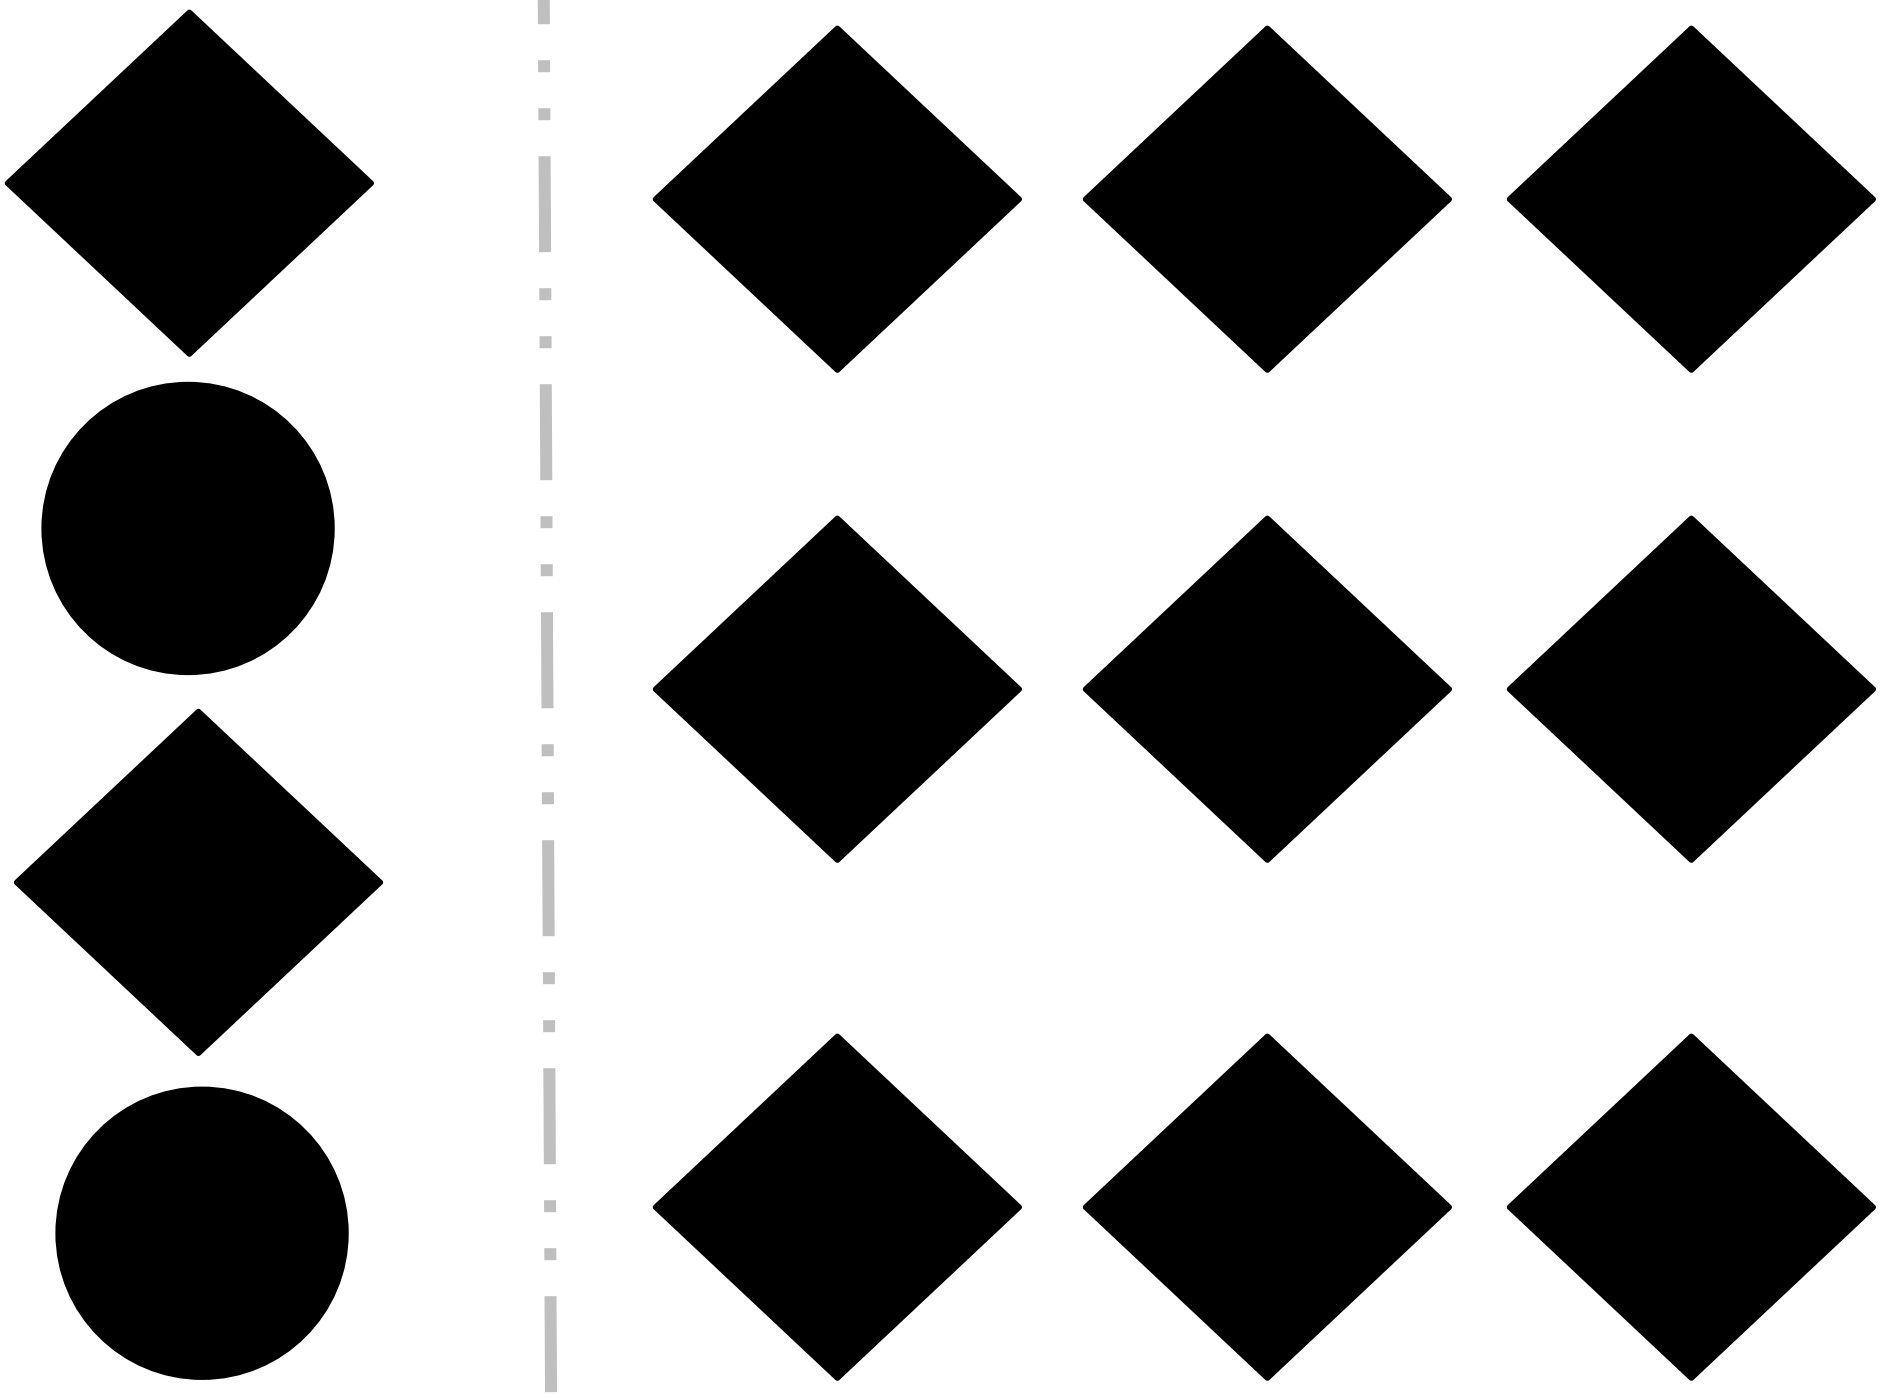
Tape or glue the 1st page's, right edge over the 2nd pages left edge as shown.



1st Page 2nd Page

Step three: So paper will stand up, place folds at the gray dotted lines. On 1st page at the dotted line – fold back. The design will face out. On 2nd page at the dotted line- fold forward, so the design faces in.





Warning: **KEEP CARD OUT OF BABY'S REACH.** For best placement place card 8 to 12 inches from baby's view.
